BRITISH WAR GOOD ROADS CHIEF WARNS MASS MEET OF UKRAINE TOMORROW

(By Associated Press.)
London, March 26.—Winston Spencer Churchill, secretary of war, told the house of commons today that events during the last two or three months in Ukraine had been extremely disastrous to the French.
He said they had entered from the south and had gone some distance when they were confronted by superior forces and also had encountered hostility from the people.
The secretary pointed out that this latter feature was something which "must be carefully weighed as it showed the danger that might result from rash or ill-considered action."
Rumania Exposed to Threat.
Churchill and Nikolaev have been in and Odessa is being defended by French and Greek forces against Russian attacks, he said. The position of the bolsheviks near Odessa, he pointed out, has exposed Rumania to direct threat of invasion which, with the Hungarians advancing on the other side, has made the situation difficult.
In speaking of General Denekine's army, the secretary said that it was Great Britain's policy to give it support, but not to involve any British troops. He said that General Denekine is fighting desperately for his native land and for the world's civilization. There is a British mission with General Denekine and medical supplies, munitions, instructors and technical advisers are being furnished. He said that General Denekine had suffered a severe reverse while advancing toward Novo Tcherkassk, but by striking back toward the Caspian he had successfully taken 30,000 prisoners. The British retain control of the Caspian, but there is a bolshevik fleet at Astrakhan, where the harbor is being held.
British Hold Bolshevists.
British troops stretching toward the frontiers of India are holding back without serious fighting bolshevik emissaries seeking to advance and spread disturbances there.
Churchill said that the British have done well in the Northern sector although they have not been so successful further south. Mr. Churchill said, adding:
"The British have a handful of men as a symbol and guarantee of the authority of Admiral Kolchak. The government has supplied the Admiral Kolchak's armies with a large number of rifles, some cannon and other munitions by the way of the Siberian railroad. It is intended to continue this support by sending technical instructors and experts to Siberia."
Korean Movement for Independence Continues

Little Willie, Patterson, a seventy-six years old ragpicker, Elburn, Ill., is missing and so is a big seven-passenger automobile bearing a 1919 Illinois license plate, 122134. Little Willie is six feet tall and built like Apollo with complexion, likewise, sandy, aside from a stubby gray mustache. When last seen, according to Chief of Police Louis Weber of Aurora, who wired the local police today, Will was arrayed in a black leather cap and either a sheepskin coat or a dark cravatette. He left the family residence at Elburn early yesterday.

5-CENT FARE ORDER FOR LA CROSSE IS CAUSE OF MUCH TALK

(SERIAL TO THE GAZETTE).
Madison, March 26.—The decision of Judge E. Ray Stevens in ordering a five cent street car fare in La Crosse after the railroad commission on Sept. 12, 1918, had ordered a six cent emergency rate is one of the prime topics of discussion before the legislative members and at least one senator declares that he believes it will have an effect on the confirmation of Carl D. Jackson, as a member of the state railroad commission. The Stevens decision shows that a number of other state commissions, New York and New Jersey in particular has refused to grant emergency rates under the same general facts as were advanced in the LaCrosse case.
Before the session of the legislature there was opposition to the appointment of Mr. Jackson. Farmers and labor organization officially passed resolutions against him. His name was sent to the senate for confirmation three weeks ago, but on suggestion of Senator H. C. Schulz, Milwaukee, consideration was delayed until April 10, to await the action of the governor on the C. E. Hanson bill which permits the railroad and other public utility officials by the legislature. This bill is expected to reach the executive this week, but Gov. Philipp has declined to offering that it must be given more study by him before he will announce his views.
But meantime other cities of the state are manifesting the greatest interest in the Stevens five cent fare decision. Madison will be before the railroad commission late this week with an application for a five cent "emergency" fares in this city. City Attorney Phelan, Sheboygan, says that he is firmly of the opinion that an emergency rate, such as was ordered in Sheboygan, could not be legally granted, and indicates that action will be taken in Sheboygan. From Racine and Oshkosh comes word that officials there believe the decision will shock the proposal to boost rates in these cities. Brown County members of the legislature expect T. J. Silverwood, city attorney, to move against the "emergency" street car and interurban fare in that city at once. City Attorney L. E. Lurvey, Fond du Lac, said he is not sure of the wisdom of these emergency rates, when the decision of Judge Stevens was announced and it is anticipated that his application will be refused in Madison this week to rescind the order.
Whether the five cent fare decision of Judge Stevens will defeat the confirmation of Mr. Jackson in the senate cannot be determined. There is a probability that republican members of the senate may hold a caucus on the Jackson appointment. The vote is known to be close. The view of the senators on the confirmation cannot be learned definitely.

50 HOMES INITIAL STEP IN VAST PLAN

MAMMOTH PROGRAM IS DEFINITELY FRAMED AT DIRECTORS' MEETING

GENERAL MANAGER WILL BE NAMED

Twenty-Three Acres of Land Have Been Purchased by Corporation.

ENDORSES \$100,000 CHECK.
Frank J. Green, manager of the Chamber of Commerce, made farewell to a \$100,000 check yesterday. It was W. C. Durant's check for stock in the Janesville housing corporation, which Mr. Green endorsed and turned over to William McVicar as treasurer of the housing corporation.

Plans and specifications for 50 houses to be built in the vicinity of Racine and Fremont streets will be drawn up immediately by Backes & Pfaff, architects.
Each house is to cost in the neighborhood of \$2,500.

This mammoth program was definitely decided upon as the initial step at an enthusiastic meeting of the board of directors of the Janesville Housing corporation last night.
Manager to Be Chosen.

A general manager to handle the work will be chosen before the end of the week, it is expected. Offices will be opened within a few days and the work will start with a swing.
Twenty-three acres of land have been purchased by the corporation, on which the houses are to be built. This was announced by H. J. Cunningham, secretary of the corporation, at last night's meeting.

Considered Ideal Location.
The land comprises 10 acres of the Dotmer property on Race street, 3 acres of the Carlson property on the same street, and 5 acres of the Drew property on Fremont street. The property is considered an ideal location for residences. Situated on high level ground, not far from the business district, comparatively near the Samson tractor plant, and in close proximity to the proposed site for the new high school, the new houses will be perfectly located.

Draw Plans at Once.
Mr. Pfaff stated this morning his firm would begin active work on the plans at once. He is enthusiastic over the project and is going to rush the project to completion.
A finance committee composed of J. P. Cullen, A. E. Bingham, and Roger Cunningham was appointed. The committee is to select three officers of the corporation. President S. M. Smith, Secretary H. J. Cunningham and Treasurer William McVicar at \$5000 each.
Instead of appointing an executive committee it was decided to have the nine directors act in this capacity and sit as committee of the whole on all questions.

Ready for Applications.
"We want all persons who desire to have houses built for them by the corporation file their applications with the secretary at the Chamber of Commerce immediately," H. J. Cunningham said this morning. "We already have received a number of applications."
The directors will meet again Thursday afternoon to arrange for the services of a competent manager. Many applications for the position have been received but the board is going to proceed carefully in order to obtain the most capable man.

CURTAINS DRAWN ON STYLE SHOWINGS TO BE LIFTED THURSDAY

What is going on behind all the curtains? Curiosity is running high on downtown streets. Veiled shop windows are hiding the mysteries of Style Week. A view of suits, hats, coats and such is replaced by a more blank stare at an enormous white canvas.
No chance to see what is behind until the whistle blows. Seven-thirty Thursday evening is the crucial moment in the annual spring debut in the shops of 20 of the city's merchants.
The unveiling of the windows will take place amid the "Aah" of the spectators and the music of the band. A band procession will proceed down the street, stopping at every window where a special display is being made. Giving each shop its own musical air. The shops will be cordially open to the public Friday and Saturday, all the beauties of the stocks being laid out for view. Individual shops plan music for the entertainment of their visitors during the day.
Autoists are requested to park their cars on side streets, Thursday.

Candidates Are Ready for the Election, Tuesday

(SPECIAL TO THE GAZETTE)
Madison, March 26.—Next Tuesday is election day in Wisconsin. Judicial elections, which take place in Wisconsin April 1, involve the choice of the supreme court and four circuit judges, also of county judges and local officers. Justice Marvin B. Rosenberry of Madison is a candidate to succeed himself on the supreme bench and Julius T. Dittman of Elroy seeks the same position. The nominees for circuit judgeships are as follows:
First circuit, Ellsworth Burnette Belden, of Racine, incumbent, no opposition; second circuit, branch five, Milwaukee, Gustave G. Gehrz, non-partisan, John C. Elest, socialist, to succeed Wm. J. Turner, deceased; Eleventh circuit, Wm. E. Foley of Superior, incumbent by appointment and W. T. Kennedy of Amery; fourteenth circuit, Henry Graas at Green Bay, incumbent.
It is stated that the fact that the United States is at war with Turkey or Bulgaria, has raised no objection to the plan.
Should the plan be adopted it is expected that the four treaties could be completed by May 1.

NATIONS' LEAGUE IS HELD VITAL

Comment of Allied Press is That Cooperative Body is Most Unessential.

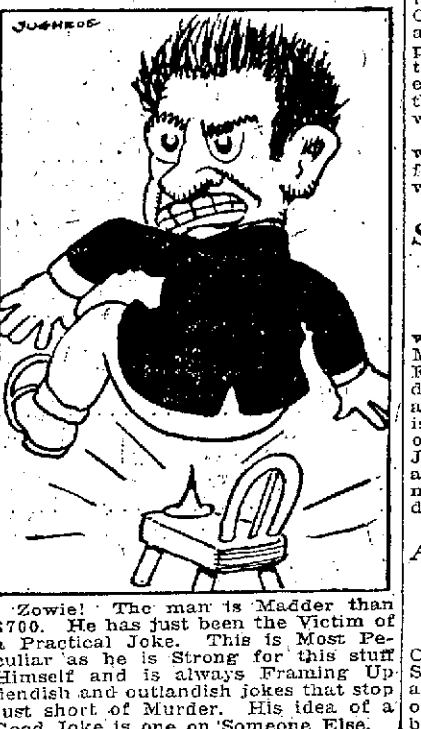

BULLETIN:
Paris, March 26.—The meeting of the league of nations commission of the peace conference which was fixed for 3 o'clock this afternoon, was postponed by a decision reached this morning until tonight. This action was taken to permit of an interrupted day's sitting by President Wilson and Premiers Lloyd George, Clemenceau and Orlando, in an effort to expediate the framing of the peace treaty.
(By Associated Press)

Washington, March 26.—A message to the White House today from the American peace delegation at Paris said greater progress toward peace was being made than "appeared on the surface."

Wilson and Premiers Confer
President Wilson and Premiers Lloyd George, Clemenceau and Orlando resumed at the Paris "White House" today their series of conferences which is expected to continue until the most important questions which have delayed the work of the peace conference are cleared up. The differences of opinion which have developed since the return of Mr. Wilson to Paris are being considered fully and frankly and a determined effort is being made in the interest of an early peace to reach an agreement on broad lines.
"A League or Ruin."
London, March 26.—In an editorial headed "A league of nations or ruin," the Daily Mail says:
"It would be folly to overlook the problems which must be solved. The most important of these is the American fear that the league of nations may involve some danger to the Monroe doctrine. In actual fact the league will afford a fresh guarantee of that doctrine. There is no reason why a provision giving the sanction of the league to the principles of Monroe should not be inserted in the final constitution."
Hungary, the Daily Chronicle says:
"The position is that of one of the defeated enemy states having broken the armistice and declared war on us. If we are to remain neutral, we must renounce our control of the world which that despite war weariness, demobilization, strikes and disagreements we are still masters of Europe and are determined to be so. We will establish the foundations of the new and better system for which we fought. But if we do not take action our impotence will be naked before all, and many people beside the Marne will hasten to take advantage of it."

New Treaty Plan Offered.
Paris, March 26.—It became known last night that a serious effort was being made to join together all the peace treaties with Germany, Austria, Turkey and Bulgaria, thus making one comprehensive treaty in which Germany would be linked with the other central powers as their responsible head.
While such a step would cause delay, yet the American and British leaders here feel that it would save time in the end and would be a workable plan for the peace treaties. The inclusion of Austria in a comprehensive treaty would be particularly acceptable to Italy, which has resented the conclusion of terms with Germany in a document which failed to deal with Italy's interests in Austria.
The movement for a single treaty grew out of Premier Orlando's opposition to such omission in the first treaty of clauses dealing with Italy's interests.
It is stated that the fact that the United States is at war with Turkey or Bulgaria, has raised no objection to the plan.
Should the plan be adopted it is expected that the four treaties could be completed by May 1.

25 ELIMINATED FROM 120-YD. DASH EVENT; HIGH HURDLES NEXT

Newman, Powers, and Crowley in the high school class and Raubacher, Palat, McClusky and F. Grasslin in the employed boys' class remain in the running for honors in the 120-yard dash as the result of the preliminary heats which were run at the Y. M. C. A. last night. The 120-yard dash marked the opening of the first annual indoor track and field meet. The shot put event will be staged Tuesday together with the 120-yard high hurdles.

With a total of 32 entries, Physical Director W. P. Craig ran off the preliminary heats in the 120-yard dash in record time. In the high school class, Powers defeated Roy, Korst beat Barriage, Shurtliff won from Luchinger, Grubb ran away from R. Smith defeated Ewing, Spoon stepped ahead of Gridley, Newman beat Todd, Ambrose beat Smith and F. Crowley defeated Pierce.

In the second preliminary Powers defeated Korst, Grubb defeated Shurtliff, R. Smith defeated Spoon, Newman defeated Ambrose, and Crowley drew a bye.

In the semi-finals Powers won out over Grubb and R. Smith in two fast heats. This leaves Newman and Crowley to run off a heat to decide which of the two will represent the class in the event along with Powers.

In the employed boys' class, first preliminary, Fullman defeated Gridley, Yahn defeated Raubacher, Feltz defeated J. Clark, Raubacher defeated Lubko, Dickinson defeated Sullivan, H. Casey defeated Zahn, Palat defeated J. Casey, McDermott defeated J. Grasslin, McClusky defeated Mills, Gillispie defeated Young, Dougherty defeated Wilcox and F. Grasslin defeated Graft.

In the second preliminary Fullman defeated Yahn, Raubacher defeated Feltz, H. Casey defeated Dickinson, Palat defeated McDermott, McClusky defeated Gillispie, and F. Grasslin defeated Dougherty.

In the semi-finals, two heats were run, Raubacher defeating Fullman and Palat defeating H. Casey. One other semi-final will be run Friday between McClusky and F. Grasslin.

The winning four of the two classes will meet in the finals for the ribbons at the time of the dual track meet to be announced later.

NEW BANKING LAWS PROPOSED IN BILL

SPECIAL TO THE GAZETTE.
Madison, March 26.—New banking regulations are proposed in a bill offered in the lower house of the Wisconsin legislature by Assemblyman Harry J. Lewis of Clark county. It would limit the dividend of state bank deposits to six percent and provides many other stringent regulations. Of the nearly one thousand banks in the state 225 are state depositories. The bill provides that every depositor who has had \$500 or more in a bank for a year should be entitled to vote at the stockholders meeting as a regular stockholder.

The Hewitt bill provides that from and after January 1, 1920, in addition to any other requirement by law, every state bank desiring to become a state depository must file proof with the state board of deposits that as a condition of becoming such depository it agrees to conduct its banking business in the following manner:

(a) To pay three per cent on deposits of one year or more.

(b) To loan money at six per cent per annum.

(c) To reserve from its net profits, one per cent of the value of its capital stock each year until such reserve amounts to twenty-five per cent of the value of such capital stock.

(d) To pay stockholders only six per cent dividend each year.

(e) That, after paying expenses, providing the reserve required by paragraph (c) and paying six percent dividends to stockholders, to divide the balance of its profits, half and half between its depositors and borrowers in the proportion which their undivided deposit or loan bears to the total deposits or loans in said bank at the time of said division.

(f) That every depositor in said bank who has had five hundred dollars or more on deposit for at least a year shall be entitled to vote at any meeting of stockholders.

The committee on taxation delayed hearing Tuesday on the Jordan bill to increase the occupational tax on grain in Wisconsin. This bill was aimed particularly at terminal cities, principally Manitowish, Sheboygan, Milwaukee and Superior. Opposition has developed in the bill to the city of Superior, which claims that unless the Minnesota legislature passes a similar bill there will be a discrimination in favor of the elevators in Duluth. The committee delayed action on the bill to ascertain which action is to be taken by the Minnesota legislature.

AUTOS WILL CARRY VOTERS TO POLLS

A number of citizens interested in better schools have volunteered to give the use of their cars in carrying voters to the polls on election day. Any woman who wishes to have a car call for her on the day between 2 and 4 o'clock, or if necessary at some other hour, she can call on the telephone. The committee woman in her ward and a car will be sent to her home.

It is urged that those who wish to arrange for cars to call for them, do not wait until election day, but get their call in as soon as possible so that a schedule can be arranged. It is expected the committee will be swamped with calls.

The committee women for the several wards are: Mrs. S. M. Smith, chairman; 1st ward, Mrs. C. S. Atwood, Mrs. Fred Sutherland; 2nd ward, Mrs. Francis Grant, Mrs. G. B. Theurer; 3rd ward, Mrs. A. C. Hough, Mrs. Abbie Helms; 4th ward, Mrs. Edward Hemming, Mrs. Hopkins; 5th ward, Mrs. P. P. Burns, Miss Elizabeth Peterson.

The polling places are as follows: 1st ward, basement of city hall; north entrance; 2nd ward, city building on Edgar bank at foot of Prospect; 3rd ward, basement of city hall; 3rd ward, west entrance; 4th ward, independent printing office, opposite south side of post office; 5th ward, city building near corner of Center and Holmes streets.

Whitewater, March 26.—Through the efforts of the Parent-Teacher association, a mass meeting was held at the city hall, Monday evening to discuss a question that has been before Whitewater people many years, that of a new high school building. Mrs. F. Kachel opened the meeting and spoke of the object for which it was called, after which F. M. Blackman was appointed chairman. Prof. Kiser, Prof. E. Lang, F. R. Bloodgood, Miss Mary McCutchan, and Mr. Gossling, of the state department, Madison, all spoke in favor of the new building. All agreed with Mr. Bloodgood, that although the old one was the only one of its kind in the United States, yet our people were very much ashamed of it. Considering the fact that about \$3,000 is paid to the city by tuition pupils, a new building seems a good business proposition it was suggested. It was the general opinion that it should be more than a high school. It must be adapted for a community center, the speaker said, and be a memorial for the soldiers, the biggest and best monument we can erect for them.

"The school that will meet the need of this new day, is one that will educate body, hand and heart, as well as mind."

Peptona, our best tonic, will be found very helpful. It contains tonic and strength building principles to aid in enriching the blood, in assimilation of food and building general strength.

It is pleasant to take, and the ingredients are so combined that they are easily assimilated even by very weak stomachs.

The Gazette Stands Ready to Support all Endeavors to Make Janesville and Vicinity a Bigger and Better Community.**WOMEN SHOULD VOTE.**

In Wisconsin women have as yet
only a slight chance to vote for of-
ficial measures, and they ought to
exercise the rights they have in order
to show their interest in public af-
fairs. The women of Janesville will
seldom get a more important oppor-
tunity than the chance they have now
to vote for the bonds that will make
possible a new high school. Every
woman who has the interests of the
children and of the city at heart
should not only go to the polls on
election day, but should get others to
go with her.

To those women who have never
voted it should be said that voting is
a simple and easy matter. You do
not need to register before the elec-
tion, and there is no ceremony.
"Women will be on hand at the voting
place" to guide their sisters wherever
necessary. If you have your present re-
sidence ten days in your ward, you
will be on the voting place in your ward.
Next Tuesday, April 1, give your name
and street number to the clerk and
he will give you a ballot in this form:
Shall the city of Janesville issue its
negotiable municipal bonds in the sum
of sixty thousand dollars (\$60,000) for
the purpose of providing funds for the
purchase of a site for a new high school
building for the necessary expense
preliminary to the erection and con-
struction of such building?

YES (X) NO ()
If you desire to vote in favor of the
issue make a cross (X) or other mark
in the square after the word, Yes.
You desire to vote in favor of the
issue make a cross (X) or other mark
in the square after the word, No.
You mark an X in the square after
"YES," as shown above, and he will put it
in the ballot box.

THE ROAD CAMPAIGN.

Reports from all parts of the coun-
try indicate that the good roads bond
issue is meeting with favor and that
it will be carried at the election, next
Tuesday. After the people have lis-
tened to the arguments of those in
favor of the plan, it has not been
difficult to convince a majority that
bond issue is the economic solution
of a problem of great importance to
Janesville.

Men who have opposed bond issues
in general have been won over to the
side of those who have been able to
present substantial facts showing that
continued waste of county funds to
maintain roads which are not per-
manently improved is poor business.

The one argument which has been
made with success is that the issue can
be taken care of out of the funds
which will be available from other
sources during the period the bonds
will run.

RACIAL DISCRIMINATION.

One of the surest ways to defeat the
peace covenant in the United States
senate is to insert a clause in the
league of nations constitution which
would deprive this country of its pres-
ent right to prohibit Asiatic immigra-
tion. It is hoped that our peace com-
missioners will stand firm against
such a proposal as made by Japan.

We must not sign away the right to
fix the racial character of our citizen-
ship. Whom we shall admit into this
country is purely an American ques-
tion for us alone to decide. Rob us
of that right and we might soon be
swamped with hordes of unassimila-
ble Asiatics.

Viscount Ishii, Japanese ambas-

sador to the United States, urges upon
us the proposed clause, declaring that
even if it is inserted in the covenant,
Japan will not take advantage of it.
"The existing treaty between Japan
and the United States guarantees to
the people of Japan the right of free-
ly entering and residing in this coun-
try," he reminds us. "In spite of this
express treaty stipulation, my govern-
ment invariably adheres to the policy
of direct restriction upon the immi-
gration of its countrymen to the
United States." He says the Japanese
government will continue to maintain
the same restrictive policy, no matter
what right to pursue a different
course may be guaranteed it by the
peace conference.

If the insertion in the league con-
stitution of the clause asked by the
Japanese would not change existing
conditions, why do they ask it? Do
they not trust us? What reason have
we for believing that the policy of the
Japanese government today will be its
policy 10 or 25 years from today?

But even if it is assumed that the
Japanese would voluntarily restrict
immigration to this country forever,
we cannot in safety agree to relin-
quish our right to bar such races as
we do not feel we can assimilate.
There are 400,000,000 Chinese and the
number is constantly increasing.
Should we let down the immigration
bars how long would it take ten mil-
lion Chinamen to swarm into this
country? And then how about the
Hindoo and other undesirable races
of the Asiatic mainland? Do we want
to give never to shut our gates to
them?

In short the proposal is untenable.
The American nation will not favor
it until it is ready to commit suicide.

Much satisfaction is gained through
the knowledge that the sometimes
maligned "captains of industry" are
sticking right to the job of keeping
those who want to work on the job
and in keeping the wheels of industry
turning, even if the president and
other members of his administration
are devoting their time to solution of
European problems.

Not only will the parents of pupils
attending school get an opportunity to
see the need of better schools by mak-
ing a visit to the institutions, but they
will encourage the teachers by show-
ing an interest in the work of the
children. This is "Visit School
Week."

The legislature reports progress.
The solons have been in session nearly
three months and have taken ac-
tion upon about one-third of the bills
before it. At this rate, the optimists
can see where the session will end
about September first.

Father had better begin to unbuckle
that strap around the family bank
roll. When the women folks get a
flash at the spring styles which will
be shown this week, someone is go-
ing to have to spend some money.

Now that the government has an-
nounced that food prices will be low-
ered and we are breathlessly awaiting the
time when we can order a full meal
and leave an eating place with some
change out of a dollar bill.

Either Janesville is one of the busi-
est little cities in the middle west or
the unemployment situation is being
overplayed. Work in this city seems
to be plentiful. In fact many con-
cerns are unable to get skilled help.

There seems to be a number of peo-
ple of foreign birth in this country
who do not like the way we run our
government. We can afford to fur-
nish them with return transportation to
their native lands.

Farmers' Co-operative

Companies Are Exempt

(SPECIAL TO THE GAZETTE.)

Madison, March 28.—Assemblyman
Axel Johnson with the farmers
anticipating that the committee on
state affairs Tuesday and offered a sub-
stitute amendment which exempts
farmers' cooperative companies, when
actual producers of food, from the
provisions of the anti-trust laws.

Assemblyman Johnson explained at
the hearing Tuesday afternoon that the
substitute amendment is practically
the same as the law now on the New
York Statute, that it only exempts
the co-operative associations whose
members are producers of food prod-
ucts.

Secretary A. W. Long, of the Ameri-
can Society of Equity, speaking for
the bill declared the present law has
been a stumbling block in the organi-
zation of farmers' cooperative soci-
eties, but that the Johnson amend-
ment will permit the members of a farmers
co-operative association to ascertain
the cost of the product and add a rea-
sonable profit.

Glen Turner, representing the State
Federation of Labor, told of the con-
troversy between the milk shippers of
the southeastern part of the state and
the milk dealers in Milwaukee and
Chicago a year ago. He said that the
farmers shipping milk to Chicago
came under the federal law which ex-
empted them, but those shipping to
Milwaukee came under the state law
and were charged with violating the
anti-trust laws when they fixed the
price of milk based on the cost of pro-
duction and a reasonable charge for
labor.

CITY PLANNING

By John Nolen, Sc. D., City Planner,
Cambridge, Mass.

There are a number of misconcep-
tions about city planning. The first
is that city planning is concerned
mainly with beauty. The term which
carries and gives expression to this
misconception is "city beautification."
It is of the utmost importance that
this fundamental error should be cor-
rected. Any city planning, that is
worthy of the name is concerned pri-
marily with use and only incidentally
with beauty. But if there is a reason-
ably high standard in providing the
useful improvements of a town or city,
it will be found that utility and beauty
are virtually inseparable.

Another misconception is almost
equally widespread. It is that com-
prehensive planning is only for big
cities. As a matter of fact the reverse
is nearer the truth. In big cities the
conditions are relatively fixed and un-
yielding. Comprehensive planning,
with our present limited city powers
and towns of city government, can
have as yet but little play in larger
places. At most it must content it-
self with relieving only the worst con-
ditions, correcting only the gravest
mistakes of the past. But with towns
and small cities that cannot be chang-
ed, because most of their territory is
still but sparsely settled and the cost
of land is comparatively low.
A third misconception, although not
so widespread, is nevertheless impor-
tant. It is that professional planning
would tend to make all cities and
towns alike. This is also far from the
truth. Skillful planning should em-
phasize individuality for a city just as
true education does for a child. It
should unfold and perfect its natural
characteristics. It should take ac-
count of a city's topography, present
natural features, and its business
purpose, express its wealth, give form
to its traditions, ideals and aspirations.
A city plan worthy of the name would
tend to check haphazard drift which
is apt to make a city commonplace.
It would hold up a worthy and dis-
tinctive ideal toward which all im-
provements, no matter how small or
unimportant in themselves, would un-
mistakably contribute.

The general principles which should
govern the preparation of a city plan
may be stated as follows: (1) economy
and the saving of waste in an econ-
omy of the desired results at a
minimum expense; (2) reasonable re-
gard for the interests of the property
owner, the taxpayer, and the general
public; (3) anticipation with proper
limit of the requirements of the future
and provision for them.

A common sense application of the

city planning has been well expressed
as follows by Frederick Law Olmstead
the leader of the movement, and the
present since its organization of the
National Conference of City Planning:
"Whether they like it or not, whether
they knew it or not, a collective re-
sponsibility rests upon citizens of the
city, as well as the organization of the
city, or that of their agents, to discharge
ways. It is utterly beyond their pow-
er, or that of their agents, to discharge
that responsibility with a complete
knowledge or infallible wisdom; but
it is reasonable that they should use
a moderate amount of their collective
energy and wealth in a deliberate and
conscientious effort to meet the respon-
sibility. It is of secondary impor-
tance what kind of agencies are em-
ployed in the effort. That is wholly a
matter of local and temporary expedi-
ency; as is also the question of how
careful and thorough and costly the
investigation and planning ought, in
common sense to be. But, from the
point of view of cities, there are cer-
tain classes of problems that confront all,
and certain common lines of investi-
gation, planning and control which are
especially apt to be worth while."

City planning has been well defined
as the intelligent control and guidance
of the physical conformation, growth
and alterations of cities, towns, or
parts thereof, considered in their en-
tirety. Or, more briefly, the organi-
zation of the physical city, town or
district to fit it to its complex use. It
includes the planning of cities, towns,
suburbs, villages, or even rural dis-
tricts. The material included in this
article is treated primarily with refer-
ence to the city plan or its elements.

In general it follows the definition as
given above, and the order of the
classification published by Harvard
University, which has provided an ad-
vance, comprehensive analysis of the
subject. This classification itself is
an impressive record of the magni-
tude of the field of city planning.

The approach to city planning is
now, and will probably always will be,
from many points of view. However
the directions of approach and hence
the points of view may differ, the or-
ganization of the modern city for
economy, health, efficiency and beau-
ty will remain essentially the same.
Therefore a comprehensive classifica-
tion such as that set forth by Harvard
University will be useful alike to the
municipal official, the business ad-
ministrator, the engineer, the expert
in sanitation, the architect, the land-
scape architect, and the city planner.
It is not possible in a relatively
brief article to give anything pre-
tending to be a complete presentation

Voice of the People

To the Editor:

For many years I have hung on
poorly, but I have not sat on my
hands, or roosted on outdoor beer
kegs at the Corn Exchange, striving to
forget the "material" in our quest for
the "ethereal," which the band con-
certs afford us.

The alternate week, we stood tree-
propped or rested on the wet grass at
the Court House park, receiving music
on the slant.

Over 500 band stand and its
sounding board "listens" good, but
why not give all the citizens a chance
to hear a bit of music? In this motor
age, one or two band wagons could be
purchased for the price of the band
stand, and they could be kept under
cover, thus defying putrefaction such
as destroyed the fancy stands in ap-
proach to the Court House and River-
view parks, per Court House and River-
view parks.

Each ward has a suitable place for
a band concert, and the echo of grati-
tude in the hearts of people weary
from their day's work, would be the
finest sounding board in the world.
We want a new high school, free
books and all that tends toward pro-
gression, but when the site of the
school is the subject of discussion let
the finest sounding board in the world
be used. We want a new high school, free
books and all that tends toward pro-
gression, but when the site of the
school is the subject of discussion let
the finest sounding board in the world
be used.

It is recalled that the Van Etta
house and its front yard was bought
by the town for a large sum not many
years ago. The building was sold for
a song, and the ground plot used for
the public library.

If the Dudley (alias Van Etta)
home is possessed again by the city,
perhaps it will be expected once
more by them, and after the house
ambles down Main or some other
street a short distance, the city
probably have a little spell of thrifty
building and lap it up again.

O, ye gods of suffering finance—
look down upon an easy populace and
give us mercy—unrestrained.

While we're planning, let's not for-
get to give each ward a whirl at it.
Never mind about the river. We are
not going that way. We are too
busy when we cross the little trickle
which is spanned by the little tricker
bridge, the "remittance." If we must
see the "noon rise over the city," or
the dawn break, take a trip to Spring
Brook, Jackson street, or Monterey
bridges and gaze upon the "remittance."
We have acquired. They have a full line
of it.

And the wards. Let's take an in-
ventory of the advantages and im-
provements of each, outside of
church and schools.

The first ward has the cemeteries;
the second, the standpoint; the third,
the court house, the court house, the
soldier's monument, the public lib-
rary, the Samson, South Janesville
and the jail—and it has a hook baited.

The fourth has a deserted brewery
and the fifth, the "Five Roils" of
the city. Give your lot. Ye people
of Janesville who dwell nearer the set-
ting sun, that ye might not awaken
some day to find a bovine descendant
of '63 eating grass which has grown
under the south car tracks on your
allotment of Milwaukee street, while
the bell pendant dangling from the
lavalier which is hanging about her
neck, keeps ringing the dirge of the
"west side."

of city planning. The attempt is here
made, however, to give a comprehen-
sive presentation of the main ideas
and to retain a proper scale and em-
phasis in the treatment of the sub-
ject by a careful apportionment of
the space allotted to each part of
the subject.

The principal topics included are
the following: the city planning move-
ment; the local survey as a basis
for city planning; the essential ele-
ments of city plans, including streets
and roads, street railways, steam
railroads, commercial waterways and
water fronts, the sub-division of the
land and real estate development, the
division of a city into zones or dis-
tricts, parks, playgrounds and other
public open spaces, public and semi-
public structures, and city planning
aspects of housing; types of city
plans; legislation and organization;
the financing of city planning; pro-
fessional training for city
planning work; societies for promot-
ing city planning; conferences; com-
petitions and exhibitions.

Throughout the article there will be
brief references to books and other
publications dealing with special top-
ics; at the end of the article, a gener-
al bibliography.

Third of Bills Before State Senate Acted On

(SPECIAL TO THE GAZETTE.)

Madison, March 26.—Nearly one-
third of the bills before the state
senate have either been enacted into
law or indefinitely postponed. There
is every indication that the work of
the legislature is behind the assem-
bly, but the senate record indicates
that much work has been accomplish-
ed.

Of Assembly joint resolutions 33
have been received from the assem-
bly, of which 30 have been concurred
in, 1 has been nonconcurred in and
8 remain to be considered.

RAILWAY SOCIAL IS HUGE SUCCESS

Philanthropically minded at the Railway social held last evening in the Baptist church, and not only a tidy sum of money was realized for the effort, but also an evening of wholly some fun was enjoyed by every body present.

Old and young people were present dressed in all sorts of unique costumes, and even the pascodon, and the church and street in original outfits assisted in the merriment. The following were some of the principal characters who took part in the activities: station agent, L. D. Barker; brakeman, J. Wilson; conductor, K. Crissey; switchman, Ray Lloyd; train butcher, Alfred Olsen, section hands, John Pritchett and Willis Wilson.

Some well known characters boarded the train and took passage for near by towns, among these were: Pety Dink personated by Fred Schmitt; his wife, Mrs. Al. Jones and a baby by Olive; a family group of stunning actresses happened to be passengers on the train, they were: Lorene, Ellen, Lorene Bowerman and Clara Schmitt. Of course to the proverbial bride and groom were aboard and were showered with the approved rice. They were Hazel Baker and J. C. Hanchett. A sweet young abigail girl, a beautiful young man in a masculine part of the train crew, she was personated by Roy Eller. Fortunes were told in a masterly way by a foreigner who proved to be Mrs. L. D. Barker, and an old maid with a heart in a cage was found to be Mrs. Crissey.

A family of emigrants were very well costumed. They were E. Curlew in an accordion, the mother, Mrs. Al. Lloyd and the big girl, Mrs. Clint Barker.

Mrs. Frank Drew as an old lady, Rev. Plerson as a farmer, Mrs. Geo. Pitzinger as a farmer's wife, and a family of lions of all sizes, helped out in the general good cheer.

The dining car was attached to the train, and Edmund Pritchett as porter and head waiter dispensed coffee and doughnuts to the passengers. Mrs. John Pritchett accompanied by a nurse girl with the baby had a flourishing family with her to whom she dispensed luncheon out of the proverbial basket. One of the features of the occasion was the sale of a newspaper, "The March Wind," on the train, which proved to be quite a readable sheet.

Of this publication, Mrs. Lillian Eddy, Miss Belle Campbell advertising manager, Mrs. E. P. Ehringer, editor, and Mrs. May Sharp, the society editor.

A group of high school students added to the general fun by singing college songs and practicing the class yell. Mrs. J. H. Snyder was head of the general committee in charge of the affair.

JACKSON ST. BRIDGE BIDS TO BE OPENED

Jackson street bridge bids will be opened tomorrow by the Board of Public Works. The bids will be for the construction of a new bridge over Jackson street, and the firm representing the city will be looking for information on the project.

Up to this morning a total of sixteen companies requested information and plans and had had surveys on the scene to look over the work proposed.

The bridge project still continues to be a topic of interest throughout the city and particularly to a big portion of the labor element who foresee a period of several months of outdoor labor.

Former Local Youth is Named Sergeant-Major

The friends of Lloyd L. Davis, formerly ticket agent of the Chicago, Milwaukee & St. Paul railroad in this city, and later holding a similar position in Beloit, will be interested to learn that the city has named him as sergeant-major of the local militia.

Since his enlistment, he has been in the personnel office at headquarters, quickly earning the confidence of the sergeant-major and later that of sergeant-major, having charge of the confidential records pertaining to officers' ratings and reports. As his work takes him into the various military organizations and unit commanders, an auto and driver are at his disposal.

Although Mr. Davis has received offers of further advancement in army work, he has decided to remain in the city and report to Beloit in a few days.

The Road Ahead For Rock County Folks

In going to the bottom of the road situation in Rock County, in order to place the facts squarely before the people, and to show why we must now decide whether to invest in concrete or waste on gravel, I have found, as might have been expected, a feeling on the part of some farmers who are not located on the proposed trunk line system, that they will not receive benefits sufficient to warrant their active support.

As to this point, I have felt that their reasons are not well founded, that upon the whole every farmer in Rock County will be benefited for the very good reason that every farmer is now contributing his share of taxes, and his share, along with those who may be located on the trunk lines, is being wasted in the attempt to maintain a trunk road system which should be so the waste affects all alike, and any change that will stop that waste will benefit all alike, whether on the main road or off. Looking at the proposition from the tax standpoint, I submit most earnestly that if we act in behalf of our own individual interests we will not fail to vote for the 100-mile trunk line proposition.

Again, I repeat, the claim that the proposed trunk line roads will be favored to the neglect of the secondary roads, I would like to say, also with as much emphasis as possible, that only by building our main roads upon a permanent basis, can we be able to properly maintain our secondary roads. If we build a rigid roadbed on the main roads it stands to reason that heavy traffic will follow the line of least resistance, and betterment of connecting roads.

And when this is done, those of us who are located on the secondary or

connecting roads will have less cause to complain about heavy trucks cutting our gravel to pieces, because the heavy traffic will be concentrated on the roads where it belongs.

And again, in reply to the claim that a hard road is of no benefit if one must travel over a stretch of bad road to reach it, I submit that with an opportunity to give more attention to the maintenance of secondary roads, there will be no stretches of "bad roads." I must repeat, that even if I am able to see the thing from the standpoint of the plan to get rid of expensive maintenance on trunk roads, it is simply putting an obstacle in the way of the country highway authorities in getting to the road with proper maintenance. It is preventing them from doing the very thing he wants done.

Returning to the loss sustained by the country as a whole, and to which taxpayer contributes, I want to emphasize the point that we should each stop to consider as individuals, that no matter where we live, what the road is, or how far away, what we are now contributing through taxes and levies and must contribute in the future, is being wasted, and that that waste is being caused by the fact that in this case that wasteful factor is the gravel road.

I shall next present what information I have obtained on the wearing and sustaining quality of concrete in reply to some questions that have been asked on that point.

Tomorrow: The Durability and Economy of Concrete. "As a Road Surface Material."

GEORGE W. HULL,
Chairman Rock County Board of Supervisors.

REDS, REINFORCED, IN BITTER FIGHT TO HOLD VITAL POINT

With the Allied Forces in North Russia, March 26.—The Bolsheviks are reinforcing both infantry and artillery at Bolshoi-Ozera in an endeavor to hold this important point. Yesterday the Americans and British attacked from the west side of the village and the Russians, supported by Americans and British attacked from the east along the road. Fighting under the most difficult conditions the allied troops were unable to advance beyond the line of enemy machine guns while the Bolsheviks maintained a certain sweep of the winding high road through the woods.

Struggling waist deep in the soft drifting snow, the forces striving from the east found a flanking movement impracticable and they were able to progress only at the rate of two-thirds of a mile an hour.

The weather during the last few days has again been extremely cold and the Americans and others who are living in igloo-like Arctic tents, are finding their first opportunity to test these tents. They are holding the line to Onega and Obozerskaia. Their big guns are moving up, drawn by American mules, which are steadily plodding ahead and conquering the steep ice hills and the deep drifts. The airplanes equipped with runners instead of wheels for alighting on the snow, have bombed Bolshoi-Ozera.

JUDGE SAYS DIVIDE PONY FARM ESTATE

In a decision handed down in Rock County Circuit court this morning the estate of the late Robert Lilburn, the Sheldahl pony farm in Emerald Grove, will be divided between the heirs.

Since the death of the elder Lilburns division of the estate has been a source of contention and, no definite agreement could be reached, between Robert Lilburn, a daughter and her brother, Robert Lilburn and his wife.

Action for partition and division of the real estate was commenced and today Judge Grimm appointed John A. Gunn of the Town of Rock and H. B. Moseley of the town of Beloit as commissioners for the making of the division.

Under the law Judge Grimm had the alternative of the course he pursued or of ordering the estate sold and the returns divided between the heirs.

Water-Sewer Mains Extension Will Be Considered at Once

Water and sewer main extensions will occupy the attention of the Board of Public Works tomorrow following its opening of the bids for the construction of the Jackson street bridge. The subject will be taken up immediately and the proposed work rushed to completion, though just where the mains will be placed is still a big question. Up to date the board has been withholding its work along this line in view of the coming activities of the Housing Corporation, the realization being that water and sewer extensions should be installed in accordance with the building project, providing, of course, that installation cost and resultant accommodation are warranted.

Speaking of the proposed plan to take up the first work tomorrow, City Engineer C. V. Kerch today said that the season was getting late and that the city would have to go ahead with the work deemed necessary at this time, this regardless of what the Housing Corporation would do. At that time, however, Mr. Kerch did not know of the announcement of the city's building association to build fifty residences immediately. In consequence it is expected that the Promont-Racine streets project will be given considerable attention.

tion. "Instead of confining my professional services to a single family of large means I now visit a half dozen or more patients of moderate means in a single day. In each of these homes I am able to render the most essential nursing services and teach some member of the family how to care for the patient between my visits.

"Hitherto many self-respecting families of moderate means have been denied skilled attendance because it has cost from twenty-five to thirty-five dollars a week. By distributing my time among several families, each secures my best and most essential help at a cost of six or seven dollars or less per week. I am busy every minute; get variety; have more fresh air and sunshine, and am freed from the boredom that is part of the nursing of only partly sick persons or chronic invalids. Best of all, I go to bed each night happy in the consciousness that I have been of real service in many homes."

the best medical and nursing attendance. The former got it through charity and the latter because they had plenty of money. "Hourly Nursing" is based on the idea of cooperation and pooling of demands and cost. I do not see why more small towns do not provide for the service and especially so, now, when so many of the returning Red Cross nurses will be anxious to stretch their professional services and ability to as many families as possible."

WINNINGER PLAYERS
COMING TO APOLLO

Frank Winninger and Company will open a four days' engagement at Apollo theatre starting tomorrow, matinee.

The opening play will be "Erstwhile Susan," the play in which Mrs. Fiske scored such a decided success last year.

Frank Winninger is perhaps the most popular actor who visits Janesville and he and his company will undoubtedly be greeted with capacity houses.

HOW TO RAISE
BABY CHICKS

PUT THIS IN THE DRINKING WATER.
Most people lose half of every hatch and seem to expect it. Chick cholera or white diarrhoea is the trouble. The U. S. Government states that over half the chicks hatched die from this disease.

An Avicol tablet, placed in the drinking water, will positively save your little chicks from all such diseases. Inside of 48 hours the sick ones will be as lively as crickets. Avicol will keep them healthy and make them grow and develop more rapidly.

Mrs. Vannie Thackeray, R. F. D. 3, St. Paul, O., writes: "I had 90 chicks and they all died but 72. Then I commenced on Avicol, and haven't lost any since. They have grown wonderfully. It costs nothing to try Avicol. If you don't find that it prevents and promptly cures white diarrhoea, chick cholera and all bowel diseases of poultry, tell us and your money will be refunded by return mail. Avicol is sold by most druggists and poultry remedy dealers, or you can send 25c or 50c today for a package by mail postpaid. Burrell-Duggan, Inc., 249 Columbia Bldg., Indianapolis, Ind."

WHAT THE PEACE CONFERENCE IS DOING TO GERMANY

1. Part of Schleswig that is to be returned to Denmark; 2. Malmédy; 3. Alsace-Lorraine; 4. Posen; 5. German-speaking portion of Austria. Stippled section indicates the Rhine provinces. Arrows point to forts Germans must dismantle.

Decisions already made by the peace conference indicate that Germany is to be a separate republic; northern Schleswig is to be returned to Denmark; Malmédy is to have a separate government under French protection; Alsace-Lorraine is to be a part of France; Posen is to be a part of Poland. To offset these losses Germany probably will gain the German-speaking part of Austria. All the Rhine forts on the right bank of the river are to be destroyed.

As Old as his Arteries

The doctor can't help it.

He knows that the man has hard arteries, high blood pressure, and beginning kidney and heart disease, due to long neglected chronic constipation.

It isn't the other man's fault—directly. He's only 45—but he never realized that his constipation was a serious thing. He never knew how to treat it. He has taken bushels of pills, gallons of castor oil, mineral waters and salts, which have battered and tortured his alimentary canal, from one end to the other; and he wonders why his health keeps getting worse. He doesn't know that his food waste has poisoned him, and has bred disease that is going to "get him" before his time.

Nujol is for just such a man—for every person whose bowels do not move easily and thoroughly at regular intervals—especially for those in advancing years whose body machinery will not stand rough treatment.

Nujol softens the accumulated food waste in the large intestine, and moves it gently out of the system, carrying those poisons with it, which, if allowed to remain, cause over 90% of human illness. Nujol supplies the lubrication that Nature can't supply as age begins to make itself felt.

This man might have known in time—but Nujol is new—the accepted modern treatment for constipation.

You can avoid such a misfortune as his. Get a bottle of Nujol from your druggist today and send for free booklet "Thirty Feet of Danger" expressing clearly the soundest medical authority on constipation and self-poisoning.

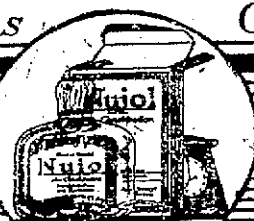

Warning: Nujol is sold only in sealed bottles bearing the Nujol Trade Mark. At all druggists. Insist on Nujol. You may suffer from substitutes.

FIRE LOSS LARGE ON JOHNSTOWN FARM

(By Special Correspondent)
Johnstown, March 25.—A fire loss aggregating between \$5,000 and \$10,000 yesterday practically wiped out the buildings, stock and machinery on the farm of Edward Behlman, who lives about 14 miles from Janesville in the northwest corner of the town of Johnstown, just off the Milwaukee road. But light insurance was carried.
But one of seven heads of valuable horses was saved by neighbors and five cows and a hundred swine were burned. Hundreds of dollars' worth of farm machinery was consumed by the flames and several thousand dollars in buildings.
The Behlman family was in Janesville when the fire was discovered by children in Township school No. 7, nearby. Neighbors, attracted by the fire and smoke, rushed to the scene, but were handicapped by dry wells and cisterns.
The office of the neighboring fire-fighters was confined to the residence, when it was seen that other structures could not be saved. They succeeded in keeping the flames from this building.
Although the origin of the blaze is not definitely known, it is believed that it was the result of spontaneous combustion of corn fodder.

ABE MARTIN

One redneck feature about a grouch—you have to attack him first. Nobody seems to have as much fun at a party as the fellow that didn't know it was going to be a dress suit affair.

How to Get Rich

Not wealthy—just rich enough to be SAFE.

Barring accidents, any young man or woman can do it. Most men and women can start in middle age and do it.

How?

Earn money. Fit yourself to earn more every year. Save part of what you earn. Make your savings earn more money; make them earn the best going wage for money.

Don't take a lower wage for yourself than your work is worth. Don't take a lower wage for your money than it is worth.

Money's wage is highest when its owner is willing to lend it for a stated length of time. The borrower knows he is going to have the use of it for that length of time, and can plan accordingly.

If you want your savings always where you can get them at a day's notice, their wage will be low—seldom more than 3%.

If you are willing to hire out your money for a term of years, you can get as much as 7%—\$7 a year per \$100—for it, at this time.

The Milwaukee Electric Railway & Light Company is offering that wage for money right now. We are hiring \$3,600,000 for a 5-year job—Nov. 1, 1918, to Nov. 1, 1923. We are getting it from our friends and neighbors here at home. We have got nearly \$2,100,000 of it. We expect to get the rest within 90 days.

We are paying 7% for this money—the highest going wage for money SAFELY invested for a 5-year term. We are selling our 5-year, 7%, bond-secured Notes at par for cash in \$50, \$100, \$500 and \$1,000 sizes.

The \$50 Note pays \$3.50 a year—\$1.75 May 1, \$1.75 November 1.

The \$100 Note pays \$7 a year—\$3.50 May 1, \$3.50 November 1.

The \$500 Note pays \$35 a year—\$17.50 May 1, \$17.50 November 1.

The \$1,000 Note pays \$70 a year—\$35 May 1, \$35 November 1.

You collect interest by clipping coupons—the same as on your Liberty bonds—and taking them to the nearest bank.

You get your principal back in cash November 1, 1923.

If you need your money before November 1, 1923, bring your Notes to our Securities Department and we will put them on sale.

BRINGING UP FATHER

SPORTS

SPORT SERIAL

(BY K. L. EAGON.)

Again, Wake up, you baseball enthusiasts! 1919—the greatest year the great-est pastime has ever gazed upon—should see Janesville with a representative nine.

There's a nifty little diamond out there, fair grounds that won't grow cabbages or dandelions. It might produce some shining lights. Let's go.

Young Demetral, the Milwaukee mat speedster, breezed into town yesterday and modestly challenged "the world" at 165 pounds. Boy, page Jess Willard.

A bird out in the forgotten city of Des Moines, Iowa, is touted as the champion chicken player of the world. He seems to be peevish because he can't get anyone excited about it. After July 1, it may be different.

Love is a great thing, but it will make his first big getaway in sports when the state basketball tournament opens tonight at Neenah. In lieu of cash prizes, heretofore the rule, loving cups will be awarded to the winners.

Much enthusiasm on both sides seems to mark efforts to stage a final game between the Beloit Fairies and the Lakota Cardinals on a neutral floor. Both teams are eager to mix it again.

Most ball players are married, which probably accounts for the scarcity of home runs.

One of the oddities of fate is recalled with the announcement that Grover Cleveland Alexander soon will be back on National league diamonds. Two years ago, when Alex was knocking 'em off most every start, young Karl Adams, a recruit, then with the Chicago Cubs, and now back on the farm, beat Alex, 1 to 0, in an eleven-inning battle royal. Young Adams yielded four hits and Alex was nipped for five. Adams never won another game, dropping eight in a row, and finally winning his unconditional release. He always can say, however, that he beat the famous Alexander.

The management of the old Baltimore Federals are in Washington before the supreme court to fight for something (we forget) that they claim they were cheated out of many years ago when the Feds were stopping the show. Which goes to show that some people are never satisfied.

Our idea of nothing at all to do would be to rush down to St. Louis and take in the annual spring inter-city series between the Cardinals and the Browns.

GOLDFISH HIT 2,780 FOR WIN OVER RAILS

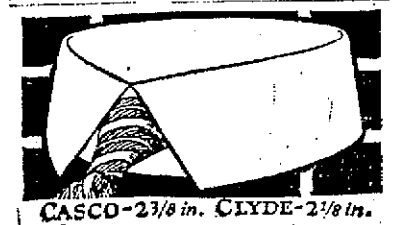

Doc Richards' Goldfish performing in championship style defeated Dale's Rails by 237 pins at the West Side alleys last night. The fish had everything their own way throughout the three innings. A couple of games well over the 900 mark boosted their total to 2,780. Richards spilled 233 pins for high score, also securing high average with his other two scores of 227 and 215.

GREEK AND BULGARIAN WILL WRESTLE AT MYERS TONIGHT; LOCAL MAN TO REFEREE

(BY KID BIFF)

TONIGHT'S WRESTLING CARD
Young Demetral vs. Jim Samson
Frank Brown vs. Kid Herman

Young Demetral, the bird who challenges the world at 185 pounds, will take on hefty Jim Samson, Bulgarian middleweight champ, in a hot wrestling match at the Myers theatre tonight. The preliminary bout between Frank Brown, Beloit comer, and Kid Herman, Milwaukee favorite, promises to be a corker.

One of the big features of the two bouts is the fact that a Janesville man will referee. E. R. McKnite, a barber in Welch's shop, has agreed to act as referee tonight. McKnite has been able to land such a crack official since from start to finish having refereed contests throughout the middle west. For four years he did nothing but officiate at wrestling meets. Manager Myers is fortunate in being able to land such a crack official.

The first match will begin at 8:30, when the Beloit mat artist and the Milwaukee Kid will perform. The main bout of the evening will follow at 10:00. Demetral will weigh in at 185 pounds, while Samson will make 160. Both men are in tip-top shape.

The Greek demon has a strong following in Janesville. It was he who nearly put the wrestling show at the carnival out of business here last year when he took up the sweeping challenge issued by the carnival sharks, and pinned a couple of them to the mat in less than 5 minutes. He is given a slight edge over Samson, although the Bulgarian boy has a long string of victories and lays claim to the

OSHKOSH BOWLERS HIT 2,992 FOR LEAD IN NATIONAL TOURNEY

[BY ASSOCIATED PRESS.]
Toledo, O., March 26.—Interest in the American bowling congress tournament today will center on Jimmy Smith of Milwaukee, who failed last night to accomplish anything in this five men event. Smith bowled with the Fred G. Smith five last night and is in the doubles squad that goes on the alleys this afternoon.

Fives on the concluding shift for tonight are from Green Bay, Wis., Monroe, Mich., Detroit, Cleveland, Louisville and Indianapolis.

Following are the leaders in each division:

STATE BASKET MEET OPENS AT NEENAH

State basket —Sports.
Neenah, March 26.—Every thing is in readiness for the basket ball tournament which opens here tonight and continues for three days.

Eight teams will compete for state honors. Those entered are the Harvester Works of Milwaukee, Neenah Athletics, Fond du Lac, Appleton, Oshkosh, Green Bay, Twin City Owls of Neenah-Menasha, and the Wisconsin Red Men, formerly the Toman Indians.

The teams that look the most formidable are the Milwaukee aggregation, the Twin City Owls and Green Bay. All eight teams will be seen in action tonight and have drawn as follows for the first contests, 7:30, Appleton vs. Toman Indians; 8:30, Twin City Owls vs. Green Bay; Milwaukee vs. Neenah Athletics; 10:30, Oshkosh vs. Fond du Lac.

Chester Roberts, formerly Athletic Director at Platteville Normal will referee.

LOCAL TEAM GOES TO TOURNEY TOMORROW

Eight men will journey to Chicago tomorrow to enter the 135-pound A. U. basketball tournament to be held there Thursday, Friday and Saturday. The local team looks good on paper and should come through with honors. It will meet the Shamrock Athletic club five in the opening game tomorrow.

Those who will make the trip and for whom registration cards were received this morning by Physical Director Craig are: Wines, Cassidy, Ryan, R. Cushing, Kober, Drew, Leslie and Charles Hager.

A number of fans will accompany the team.

THREE GAMES PLAYED IN HANDBALL TOURNEY

In the opening game of the handball tournament played last night at the Y. M. C. A., Dickinson, Raubacher and Dougherty, emerged victorious. More contests will be played this week.

Dickinson beat Casey, 21-1 and 21-13; Raubacher defeated McCluskey, 21-5 and 21-2; and Dougherty, defeated Clark, 21-4 and 21-12.

BOWLING TOURNEY OPENS WITH OVER 30 TEAMS ENTERED

With the four alleys in the speediest possible condition, the Southern Wisconsin and Northern Illinois bowling tournament will open at the West Side alleys tonight. Manager Henry Robbins had not completed a definite schedule for the opening games up to noon today.

With over 30 entries and prospects bright for a total of 40 or 50, the meet promises to be a fast one. The West Side alleys' cup for high men in all events and the Gazette cup for high individual score in any event are keenly sought.

INDOOR BASEBALL STARTS TOMORROW

Opening games in the indoor baseball league will be played at the Y. M. C. A. tomorrow night when Barriaga's nine will meet Bick's team and Ambrose's crew will cross bats with Newman's cohorts. The same rules govern eligibility as were in force in two basketball leagues.

Our Formal Presentation of Spring and Easter Fashions

FRIDAY AND SATURDAY, MARCH 28th AND 29th
Introducing the Newest Styles for Spring and Summer, Nineteen-Nineteen

Suits, Coats, Wraps, Dresses, Skirts, Blouses and Accessories of Dress

ONCE AGAIN DAME FASHION HAS WAVED HER MAGIC WAND, and from out of the innermost recesses of that mysterious place we call the imagination she has summoned the conceptions for the slender lines and supple forms; she has enveloped the creations which we now ask you to view. Creations more charming, more enrapturing, more lovely, we have never had the pleasure of presenting to you for selection in any previous Spring showing. To see them is to admire them, desire them, to own them. That's all we can say. That's the way we feel about them and that's the way we think that anyone else will feel who is fortunate enough to feast her eyes upon the slender lines and the ingenious miracles of miniature style treatments they introduce along their long and graceful sweep.

Original Paris models, their flattering duplications, and various collections of magnificent American originations constitute the long avenues of models which we offer for your inspection and selection.

The New Spring Suits

A visit here will convince you that Dame Fashion exerted unlimited power in fashioning these suits in order to captivate the desire of all women of fashion. Simplicity is the keynote they strike from collar to hem, Smart box effects, semi-box, loosely belted and strictly tailored models, also the new blouse effects. The materials are Serge, Tricotine, Poplins, Gaberdine, etc. Every new and popular shade is shown including black. Inspection of them is cordially invited.

The New Spring Coats

Come in and view the most charming collection of coats that have ever been shown in Janesville. Beautiful models in Coats, Dolmans and Capes. All models are so attractive that it won't be a question with you of "Shall I get a coat?" But rather, "What model will I purchase?" Not a single model that has beauty and style correctness to recommend it, has been omitted from this splendid showing. The materials are Serges, Poplin, Tricotine, Gaberdines, Bolivia, Cut Crystal Covert, Duvelaine, etc. Colors: black, navy, maize, tan, rook, mixtures, etc.

The New Spring Dresses

The narrow silhouette dominates the new dresses, too, and embodies them with a youthfulness which will not fail to bring forth numerous "Ohs" and "Ahs" of genuine admiration from the onlookers. Every dress is splendidly tailored and possesses fascinating little touches of trimming that make it charming indeed. The materials most favored are Serges, Tricotine, Jersey, Tricolet, Georgette, Crepe de Chine, Charmeuse and beautiful combination effects. Colors: black, navy, walnut, Henna, Victory red, peach, taupe, brown, green etc.

The New Spring Blouses

Color plays a very important part in the new Waist styles. Flesh, Peach, Navy, Bisque, Tea Rose, Taupe, Apple Green, etc. Round neck, square neck, collarless style and high neck. Embroidered, braided, tucked, hem-stitched, lace trimmed, etc. The materials are Georgette Crepe, Crepe de Chine, Tub Silks, Lawns, Voiles, Organdies, etc. Many a woman and Miss who lets her eyes feast upon them will find herself longing to place one or more of them in her Spring wardrobe. Why not come and view them?

Our Great Second Floor

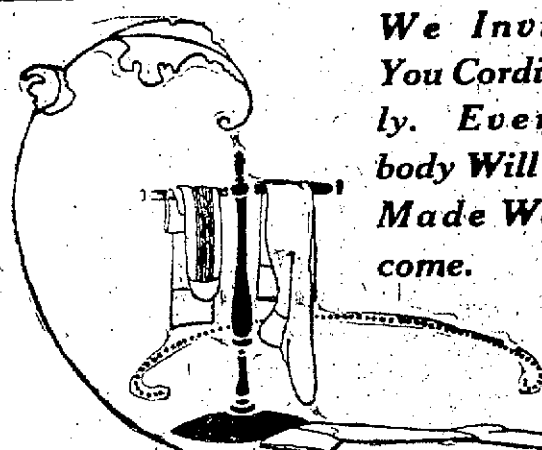

New Curtains, Draperies and Floor Coverings make their formal presentation. All that constitute the correct vogues to give the home that bright Spring cheerfulness which all home lovers admire at this season of the year. Be sure and visit this department.

The New Spring Skirts

Simplicity is evident in every line of these new creations. They are fashioned like the other garments, along slender, straight lines. This is true of all styles, those for dressy wear as well as those for street and sport wear. The materials are of Serges, Poplin, Chud-dah, Plaids, Mixtures, Messaline, Taffeta, Tanti, Georgette Crepe, Pussy Willow, Baronette Satins, Khaki Kool, Tricolette, Fan Tan Si, etc. Our wonderful showing of them now courts your attention.
